Dangerous Goods

- Fuels, fertilizers, acids, ammunitions, paints, aerosol cans, corrosives and/or flammable liquids such as kerosene, tarnish removers, paints, lighting fluids and lighters will NOT be carried by any removalist, as it not only may invalidate their insurance but could be disastrous incase of an accident.
 - It's a good idea to dispose of these items in an environmentally friendly way.
 - Under no circumstances should you dispose of these items in waterways and/or drainage systems. Not only would you be polluting the environmental surroundings, but it is also against the law.
 - Lawn mowers, wiper snipers, gas bottles, etc. should be emptied of any fuels or gases well before transportation. (Leave gas bottles connected to the BBQ and burn off the excess gas).
 - Removalists will refuse the transportation of any and all items they feel fit into the "dangerous goods" category.
- If you are unsure what is classed as "dangerous goods" please contact us at any time for more information.
